

36.

discoloured by action of air. There must have been great bleeding from wounds if inflicted either before or immediately after death. If an hour after death little or none.

I adhere to my opinion that it is impossible that the woman should have strangled herself.

Re-examined - From what was in stomach she must have taken food not more than three or four hours before death.

26. Dr. Alexander Mitchell Stalker, M.B.,  
140 Kethergate, Dundee. Made post mortem examination with last witness and concurred with him. I concur in all he said.
28. Dr. Henry Duncan Littlejohn, M.D., Royal Circus, Edinburgh. I have heard the Medical Report read and the evidence of the two Doctors who made it and also the whole evidence in the case. I carefully read and considered report ✓
